THE UNIVERSITY OF AZAD JAMMU & KASHMIR

ASSIGNMENT #01

- NAME:
  SYED QOUSAIN HAIDER SHAH
- ROLL NO#:
  2024-CET-13
- DEPARTMENT:
  SOFTWARE ENGENERING
- PROGRAM:
  CET
- SUBJECT:
  GRAPHIC DESIGNING

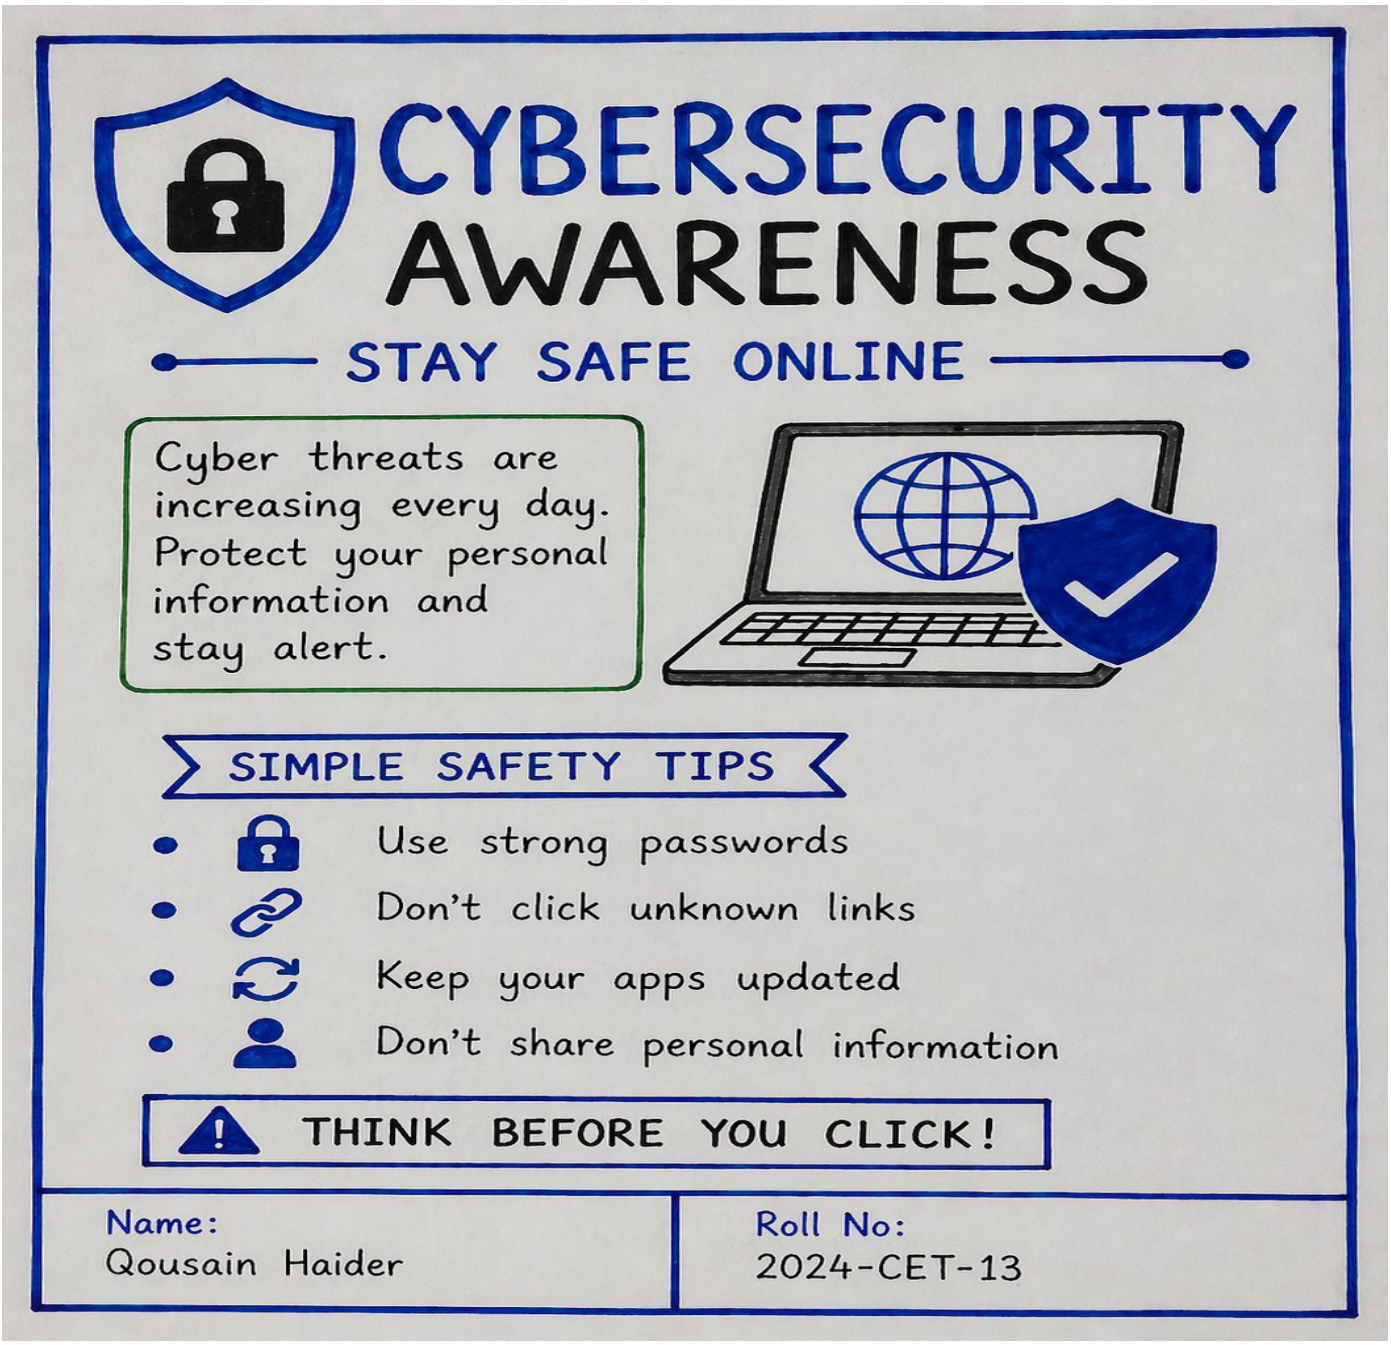
SUBMITTED TO: MA'AM FATIMA

- ## Assignment Objective:

Students will design a simple poster by applying basic principles of color, typography, readability, and layout. The task is intentionally easy so everyone can complete it on time.

:

- ## PART A (MY DESIGN):



Part B: Short Explanation:

I created this poster using Canva, which made it easy to design a simple and clean layout. I selected a basic template and customized it according to my topic, Cybersecurity Awareness. I used only blue, black, and white colors to keep the design neat. Blue represents safety and trust, while black makes the text clear and readable.

For fonts, I used one bold font for the title to make it stand out, and a simple font for the rest of the text so it is easy to understand. I also added simple icons like a lock and a laptop from Canva to visually explain the idea of security. Overall, I kept the design balanced and not too complex, so it looks like beginner-level work.
