LAB TASK No. 01

Exploring Canva Interface & Designing a Motivational Quote Post

Student Name	**Qousain Haider**
Roll Number	**13**
Subject	**Graphic Designing**
Task No.	**01**
Submitted To	**Ma'am Fatima**
Submitted By	**Qousain Haider**

Department of SOFTWARE ENGENERING (CET)

Graphic Design

Lab Topic: Exploring Canva Interface & Designing a Motivational Quote Post

Instructions

Explore the Canva design platform (www.canva.com). After exploring the interface, answer the following questions and complete the design task.

Task 1: Canva Interface Exploration

Q1. Name any FOUR tools available in the Canva sidebar.

1. Elements – a large library of shapes, icons, graphics, photos, videos, frames, grids, charts and stickers that can be dragged onto the canvas.
2. Text – provides heading, subheading and body text options along with ready-made font combinations, text effects and animations.
3. Uploads – allows the user to upload their own images, videos and audio files from their device to use inside any design.
4. Templates (Design) – offers thousands of pre-made, professionally designed templates in different sizes and categories.

Other commonly used sidebar tools include: Projects, Brand, Apps, Draw, Photos and Background.

Q2. What is the purpose of the following Canva tools?

Canva Tool	Purpose
Elements	The Elements tool is used to insert ready-made design assets into the canvas. It contains shapes, lines, icons, stickers, illustrations, photos, videos, charts, grids and frames. These elements help decorate the design and make it visually attractive without having to draw anything from scratch.
Text	The Text tool is used to add written content to the design. It offers heading, subheading and body text styles with hundreds of fonts, ready-made font combinations, text effects (shadow, curve, outline) and animations. It is essential for titles, quotes and any written message in a design.
Uploads	The Uploads tool allows the user to import their own media (images, videos and audio) from their computer, phone or cloud storage into

	Canva. Uploaded files are stored in the user's Uploads library and can be reused in any future design.

Task 2: Design Task – Motivational Quote Post

A motivational quote post of my own choice has been designed in Canva following all the given design requirements.

Design Requirements fulfilled:

- Canvas Size: 1080 × 1080 px (Instagram-ready square post)
- Background: Deep purple-to-navy gradient with subtle decorative accents
- Motivational quote text placed in the centre using an elegant white serif font
- Decorative shapes/icons: golden star sparkles, corner line-art frames and divider lines
- Exported / saved in PNG format as instructed

Quote used in the design:

"Believe in yourself and all that you are. Know that there is something inside you that is greater than any obstacle." — Christian D. Larson
